Data Citation BOF: from Archives to Platforms

- August Muench (AAS Journals) gave an update on **Data Citation in articles** -- AGU FAIR data project; exposing data-literature links (and relationships);

- Raffaele D'Abrusco (**Chandra Data Archive**) described why the CDA invests in PID projects & plans for 3 data DOI types (observations; aggregates; user data);

- André Schaaff reported on the **IVOA Data Curation and Preservation session** on DOIs, including DOI granularity, metadata, and drafting an IVOA note on DOIs.

- Séverin Gaudet described **CANFAR/CADC's past and future** for minting DOIs for author data, including new author driven archiving workflows;

- **Round table discussion:** Anne Raugh on **PDS's** plans for DOIs; the view from platforms such as **LSST**; status of the **MAST** DOI minting project; a discussion of the **chicken-egg problem** for article/data publication, and much more!
